STEPS TAKEN

1	2	3	3	5
Find Pre-Accident Value	Find Market Value With Comparable Vehicles	Calculate Base Loss of Value	Analyze Damage Level	Calculate Final Diminished Value
We use Kelley Blue Book® as an industry standard to find the Typical Listing Price value of an equivalent vehicle in excellent condition	We search for comparable vehicles based on Make, Model, Year, and Trim, and then adjust them and average them to determine a Market Value	We calculate the Base Loss of Value by taking the difference between the Typical Listing Price Value (from #1) and the comparable Market Value (from #2)	Our system analyzes the Repair Estimate to determine a Damage Adjustment to take into account based on the work already done	We then take the Base Loss of Value and subtract the Damage Adjustment to arrive at a Final Diminished Value

Kelley Blue Book® Typical Listing Price checked for zip code 33440 via API on February 3, 2024

Pre-Accident Typical Listing Price Value
\$49,877.00

©2023 Kelley Blue Book Co., Inc. All rights reserved. As of 2/03/2024 Edition for 33440. Values and pricing are the opinions of Kelley Blue Book, and the actual price of a vehicle may vary. The value and pricing information displayed for a particular vehicle is based upon the specification, mileage and/or condition information provided by the person generating this report. Kelley Blue Book assumes no responsibility for errors or omissions.

Kelley Blue Book® Typical Listing Price
Formerly known as Suggested Retail Price, the Kelley Blue Book® Typical Listing Price is representative of dealers' asking prices for a used car. It assumes that the vehicle has been fully reconditioned and has a clean title history. This price also takes into account the dealers' profit, costs for advertising, sales commissions and other costs of doing business. The final sale price will likely be less, depending on the car's actual condition, popularity, type of warranty offered and local market factors. In other words, it's the price you should expect a dealer to ask - not always the price you should pay.

MARKET IDENTIFICATION

As used in this report, FMV means “fair market value” and is determined by utilizing standard and acceptable methods of calculation. Private passenger automobiles have several distinct markets (wholesale, trade-in, retail, etc.). Fair market value is the price for which a vehicle may be purchased on the open market when neither the seller nor purchaser is under any duress to sell or purchase. In accordance with the USPAP proper market rule, the proper market (largest applicable) to replace the subject vehicle is the used vehicle retail market.

Estimate based on MOTOR CRASH ESTIMATING GUIDE and potentially other third party sources of data. Unless otherwise noted, (a) all items are derived from the Guide DR7QA20, CCC Data Date 11/15/2023, and potentially other third party sources of data; and (b) the parts presented are OEM-parts. OEM parts are manufactured by or for the vehicle's Original Equipment Manufacturer (OEM) according to OEM's specifications for U.S. distribution. OEM parts are available at OE/Vehicle dealerships or the specified supplier. OPT OEM (Optional OEM) or ALT OEM (Alternative OEM) parts are OEM parts that may be provided by or through alternate sources other than the OEM vehicle dealerships with discounted pricing. Asterisk (*) or Double Asterisk (**) indicates that the parts and/or labor data provided by third party sources of data may have been modified or may have come from an alternate data source. Tilde sign (~) items indicate MOTOR Not-Included Labor operations. The symbol (<>) indicates the refinish operation WILL NOT be performed as a separate procedure from the other panels in the estimate. Non-Original Equipment Manufacturer aftermarket parts are described as Non OEM, A/M or NAGS. Used parts are described as LKQ, RCY, or USED. Reconditioned parts are described as Recond. Recored parts are described as Recore. NAGS Part Numbers and Benchmark Prices are provided by National Auto Glass Specifications. Labor operation times listed on the line with the NAGS information are MOTOR suggested labor operation times. NAGS labor operation times are not included. Pound sign (#) items indicate manual entries.

Some 2023 vehicles contain minor changes from the previous year. For those vehicles, prior to receiving updated data from the vehicle manufacturer, labor and parts data from the previous year may be used. The CCC ONE estimator has a list of applicable vehicles. Parts numbers and prices should be confirmed with the local dealership.

The following is a list of additional abbreviations or symbols that may be used to describe work to be done or parts to be repaired or replaced:
